

# GAME TO GROW MINECRAFT SERVER

Welcome! We are glad to have your family join us for Minecraft! The purpose of the server is to provide participants a place to play and have fun together outside of regular group meetings. Unlike the [facilitated Minecraft group](#) which has organized group activities to help participants build social skills, this is an informal social place to connect and play together. Though the server will not have the same facilitation as the weekly groups, the server will be moderated by Game to Grow staff.

Here are the steps to join:

- 1) **Make sure you have the "Java" version of Minecraft installed on a computer.**  
The Game to Grow Minecraft server can only be accessed on a computer; other versions of Minecraft are not able to access the server at this time. To purchase the Java version of Minecraft, please click here: <https://www.minecraft.net/en-us/store/minecraft-java-edition>
- 2) **Request to join the Game to Grow Server.** Please have the player's username ready and fill out the online form here: <https://forms.gle/6P4juBUWzk7z4jem8>. This will help us identify all the players on the server and limit access exclusively to Game to Grow participants.
- 3) **Join the server during one of the moderated Group Play Times.** Until players are "verified," players will only be able to access the server during Group Play Times. Players who demonstrate that they can play on the server while following the community guidelines will be granted access to open creative play on the server at any time. \*

\*The Minecraft server will not be available for open play during our Minecraft social groups, which run from 6:30-8:00pm on Fridays.

## Group Play Times this week are:

Tuesday 3/24 - 6pm-7pm

Wednesday 3/25 - 12pm-1pm

Thursday 3/26 - 6pm-7pm

# PLAYERS -READ ME!

## Game to Grow Minecraft Server Community Guidelines

- 1) **Do:** Feel free to build wherever you want, just not too close to someone else's build without their permission.
- 2) **Do:** Be kind to other players in the game and in chat.
- 3) **Do:** Have fun adventuring!
- 4) **Do:** Invite others to build with you.
- 5) **Do:** Tell a moderator if you run into any trouble.
- 6) **Don't:** Break other people's things.
- 7) **Don't:** Take other people's things.
- 8) **Don't:** Add too many things at once. It slows the game down!
- 9) **Don't:** Try to lag or break the server.

Please note: Everything on the server is logged. The purpose of this server is to have fun and connect. Intentionally destructive behavior is no fun for anyone, and will not be tolerated. "Griefing" and unwanted trolling or general disrespect for these guidelines may result in restricted access to only Group Play Times.

If you have any questions or concerns please ask a moderator. We are here to help!

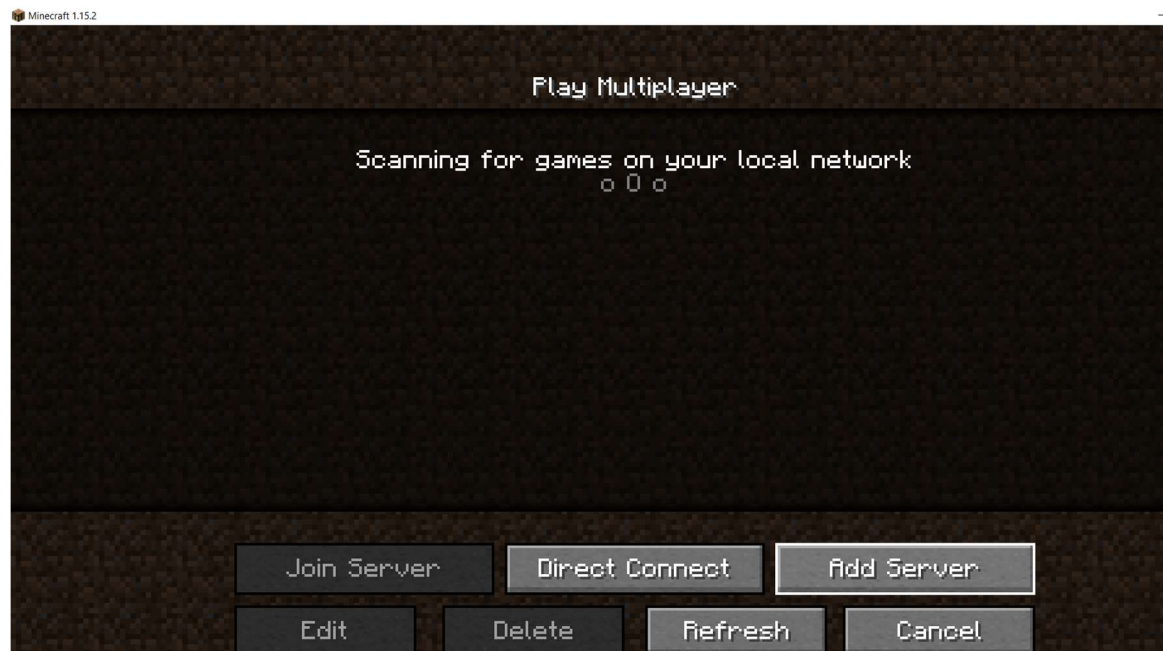

We look forward to seeing you on the servers soon!

# INSTRUCTIONS FOR JOINING THE GAME TO GROW SERVER

- 1) Open the game and click "Multiplayer."

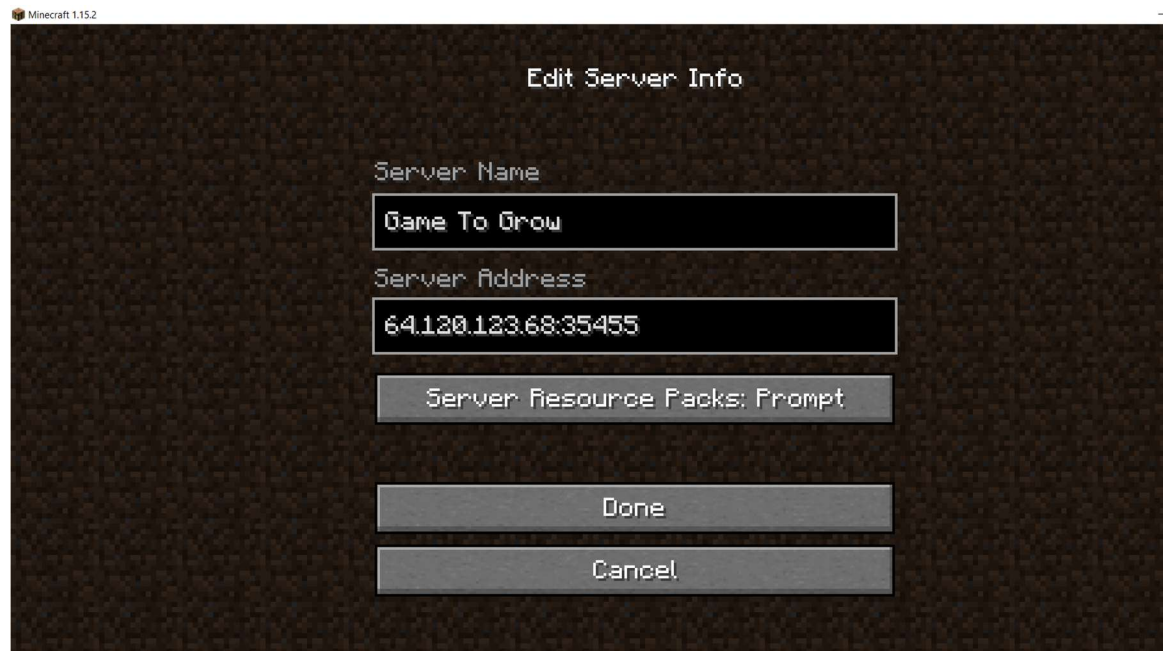

- 2) Next, click on "Add Server"

- 3) Enter in a name for the server and the provided server address.

The server address is **64.120.123.68:35455**

- 4) You have now added the server to your list. Double-click on the server and it will connect. See you soon!
